About the Course

Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of Vocational Training courses catering to the need of different sectors of economy/ Labour market. The Vocational Training Programmes are delivered under aegis of National Council of Vocational Training (NCVT). Craftsman Training Scheme (CTS) and Apprenticeship Training Scheme (ATS) are two pioneer programmes of NCVT for propagating vocational training. Recently DGT has started Technical Diplomas for different streams and primarily implemented at DGT field institutes, National Skill Training Institutes and planned to expand to State Directorates in future. IT, Networking and Cloud course is very much essential in the current scenario due to a lot of demand in software industries where every industry is using cloud as base. After passing out the training programme, the trainee will be awarded Technical Diploma by NCVT which has worldwide recognition.

A candidate who has completed this course :

- Can start their own enterprise on cloud maintenance, computer hardware maintenance
- Can apply for jobs in Industry as system technician, cloud developer, web designer and trainers.
- IBM will also work on vertical mobility for the students passing the Advanced Diploma course to B.Voc / B.Tech or similar courses offered by its partner universities.

Duration of the Course:

The course is for two years duration. In the first year there are five core modules each module is credit based and employable. Each module is of 320 hours and is very much independent. In second year, the trainee will be taking two elective modules out of three electives each of 320 hours and will be doing on the job training in Industry for 800 hours. In addition, the trainees will pick up employability skills for 160 hours.
